
ANNOUNCEMENT TO THE ASX

Sydney, 31 August 2007 – Inventis Limited (ASX: IVT)

The Directors wish to advise that discussions are underway to expand its technology division through the acquisition of a design company, which has an impressive client list consisting of some of the world's leading companies and famous brand names. Should these discussions prove fruitful, substantial synergies will be available to our technology division to become a full service organisation with access and opportunity into the world arena. The immediate projected increase would be in the order of \$7m in revenue and \$1m in NPAT.

Tony Noun
Managing Director
