It is an express term that Applicants are bound to accept a lesser number of Additional Shares allotted to them than applied for and Applicants shall be bound to accept a refund of money in respect of the number of Additional Shares that may have been applied for. 1.6 Rounding

Fractional entitlements to New Shares will be rounded down to the nearest whole number.

1.7 ASX Quotation

The Company will apply for the official quotation of all New Shares on ASX within seven business days after the date of this Offer Document. If official quotation of the New Shares is not granted by ASX within three months after the date of this Offer Document (or any longer period permitted by law), the Offer will be cancelled and Application Monies will be returned (without interest) to Applicants as soon as practicable.

1.8 Allotment of New Shares

Allotment and issue of New Shares will only be made once the Application Monies have been received and ASX has granted permission for quotation of the New Shares.

If permission is granted, it is expected the New Shares will be allotted on 17 January 2012 and transaction confirmation statements for the New Shares dispatched shortly thereafter.

All New Shares will rank equally with the Shares already on issue.

Australia and New Zealand

The Offer is made only to those Shareholders with registered addresses in Australia or New Zealand and only those Eligible Shareholders will be offered an Entitlement.

All Shareholders who are not Eligible Shareholders are referred to as Non-Participating Foreign Holders.

The Company has decided that it is unreasonable to make offers under this Offer Document to Non-Participating Foreign Holders, having regard to the number of Shareholders in those places, the number and value of the New Shares they would be offered and the cost of complying with the legal and regulatory requirements in those places.

Accordingly, the Offer is not being extended to, and no Rights will be issued to, Non-Participating Foreign Holders.

This Offer Document is sent to those Shareholders for information purposes only.

The Company reserves the right to treat as invalid any Entitlement and Acceptance Form that appears to have been submitted by a Non-Participating Foreign Holder. The distribution of this Offer Document in jurisdictions outside Australia and New Zealand may be restricted by law; and persons who come into possession of this Offer Document should seek advice on and observe any such restrictions.

Any failure to comply with such restrictions may constitute a violation of applicable securities law.

New Shares issued pursuant to this Offer Document will rank equally in all respects with existing Shares from their date of issue, which is expected to be on or about 17 January 2012.

Holding statements are expected to be dispatched in accordance with the Listing Rules.

1.16 CHESS

The New Shares issued pursuant to this Offer Document will participate from the date of commencement of quotation in the Clearing House Electronic Subregister System ('CHESS') operated by ASX Settlement. They must be held in uncertificated form (i.e. no share certificate will be issued) on the CHESS subregister or on the issuer- sponsored subregister.

Arrangements can be made at any subsequent time to convert your holding from the issuer sponsored subregister to the CHESS subregister or vice versa by contacting your sponsoring market participant.

1.17 Withdrawal

The Directors may at any time decide to withdraw this Offer Document and the Offer. If this Offer Document and the Offer are withdrawn for any reason, the Company will return all Application Monies in accordance with the Corporations Act. Any interest earned on Application Monies will belong to the Company.

1.18 Risks

Potential investors should read the entire Offer Document and, in particular, consider the risk factors that could affect the Company before deciding to invest. A summary of certain risks applying to an investment in Shares is set out in Section 4 of this Offer Document. Potential investors should carefully consider the risks in light of their personal circumstances (Including financial and taxation issues).

If you are uncertain about any aspect of this Offer Document, including whether the Offer is a suitable investment for you, you should seek professional advice from your stockbroker, lawyer, accountant or other professional adviser before deciding whether to invest.

1.19 Taxation

It is the responsibility of all Applicants to satisfy themselves of the particular tax consequences that apply to them, by consulting their own professional tax advisers before taking up their Entitlement. Taxation consequences will depend on individual circumstances. Neither the Company nor any of its officers, employees or agents, nor its taxation or other advisers accepts any liability or responsibility in respect of taxation consequences connected with the Offer. Investors should obtain their own professional advice before concluding on the particular taxation treatment which will apply to them.

SECTION 2 - ACTIONS REQUIRED BY ELIGIBLE SHAREHOLDERS

Important Notice – Your entitlement may have value

Eligible Shareholders should be aware that their Rights may have value. The Entitlement issue is renounceable, which allows Eligible Shareholders who do not wish to take up some or all of their Rights to sell their Rights to the New Shares they are not going to take up. Eligible Shareholders should either take up their Entitlement in whole or in part or deal with their Entitlement as outlined below. You do not need to take up your full Entitlement. You will receive no benefit if your Rights lapse.

2.1 What You May Do Under the Offer

Before taking any action in relation to the Offer, Eligible Shareholders should read this Offer Document in its entirety including, but not limited to, Section 4 - Risk Factors.

The choices available to Eligible Shareholders include:

- Take up their Entitlement in full (refer to Section 2.1.2);
- Take up their Entitlement in full and apply for Additional Shares (refer to Section 2.1.3);
- Take up only part of their Entitlement (refer to Section 2.1.4);
- Sell their Rights in part or full on ASX (refer to Section 2.1.5);
- Accept part of their Entitlement with the balance of their Rights lapsing;
- Do nothing and allow their Entitlement to lapse.

2.1.1 Avoid Diluting Your Shareholding

The Offer is a pro-rata offer to Eligible Shareholders. Eligible Shareholders who take up their full Entitlement will not have their percentage shareholding in the Company diluted by the Offer. The percentage shareholding of Eligible Shareholders who do not take up all of their Entitlement will be diluted by the Offer.

2.1.2 If you wish to take up your Entitlement in full

If you wish to take up all of your Entitlement, you should complete the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on the Form and return it, together with payment for the full amount payable (being \$0.012 multiplied by the number of New Shares comprising your Entitlement) so it is received by the Closing Date, 5.00 pm 9 January 2012.

2.1.3 If you wish to take up your Entitlement in full and apply for Additional Shares

If you wish to take up your Entitlement in full and apply for Additional Shares, you should complete the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on the Form and return it, together with payment for the full amount payable (being \$0.012 multiplied by the number of New Shares comprising your Entitlement) so it is received by the Closing Date, 5.00pm 9 January 2012.

The issue price for Additional Shares is \$0.012 per New Share. Eligible Shareholders who apply for Additional Shares may be able to participate in any shortfall which is available after the allocation of Entitlements to each Eligible Shareholder who has applied for their Entitlement. However, there is no guarantee that you will receive Additional Shares in excess of your Entitlement. Directors have the discretion to determine how allocations of Additional Shares will be made if any Entitlements are not taken up in full.

The Company will treat Eligible Shareholders as applying for as many Additional Shares as their payment will pay for. Any amount received by the Company in excess of the amount required to be paid by an Eligible Shareholder to apply for its Entitlement (“**Excess Amount**”) may be treated by the Company as an application for as many Additional Shares as that Excess Amount will pay for.

2.1.4 If you wish to take up only part of your Entitlement

If you wish to take up part of your Entitlement, you should complete the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on the Form, indicating the number of New Shares you wish to take up (being less than your Entitlement as specified on the Entitlement and Acceptance Form) and return it, together with payment for the full amount payable (being \$0.012 multiplied by the number of New Shares for which you

wish to apply) so it is received by the Closing Date, 5.00pm 9 January 2012. If you take up part of your Entitlement, then you may sell the balance of your Rights as described in Section 2.1.5. However, if you take up only part of your Entitlement, although you will own more shares than before the Offer, your shareholding in the Company will be diluted.

2.1.5 If you wish to sell some or all of your Rights

If you wish to sell (renounce) all of your Rights, contact your stockbroker/agent and follow their instructions. Please note that it is expected that the official quotation of the Rights on ASX will commence on 14 December 2011. You should instruct your stockbroker/agent as early as possible. Sale of your Rights must be completed by no later than 4.00 pm, (AEDT) 30 December 2011 when Rights trading ceases. Though your Rights may be quoted there is no guarantee you will be able to sell your Rights.

2.1.6 If you do nothing

If you decide not to take up all or part of your Entitlement, you should consider selling your unaccepted Entitlements, rather than allow your Entitlements to lapse. If you do not deal with your Entitlements, they will lapse. If your Entitlements lapse they will revert to the Underwriter who may subscribe for New Shares without any benefit to you. It is therefore important that you take action either to accept or consider selling your Entitlements according to the above instructions. If you do nothing, although you will continue to own the same number of Shares, your shareholding in the Company will be diluted. Shareholders are responsible for determining their allocation of Rights before trading them. Shareholders who trade in Rights before receiving confirmation of their allocation do so at their own risk.

2.2 Additional New Shares

Eligible Shareholders may also apply for more than their Entitlement. To apply for additional New Shares, please complete the 'Additional Shares' section on the Entitlement and Acceptance Form.

Eligible Shareholders may apply for Additional Shares that may be issued from any shortfall under the Offer. The Company in its sole discretion reserves the right to:

- scale back or reduce to zero the number of Additional Shares allotted to
 - any Eligible Shareholder; and
 - reject applications for New Shares in the event that there is an oversubscription for New Shares.

Additional Shares will not be issued to Eligible Shareholders where to do so would involve a breach of the Listing Rules or any applicable law.

Acceptance of Entitlement

Acceptance of the Offer must only be made on the Entitlement and Acceptance Form attached to or accompanying this Offer Document. Acceptance of your Entitlement may be for any number of Shares but must not exceed your Entitlement as shown on that form (unless you are applying for Additional Shares as detailed in Section 2.2. If it does, your acceptance is deemed to be for your full Entitlement. The Closing Date and time for receipt by the Company of valid acceptances of Entitlements is 5.00pm (AEDT) on 9 January 2012 (subject to variation). Eligible Shareholders should return their completed Entitlement and Acceptance Form and payment in the reply paid envelope provided with this Offer Document. To the fullest extent permitted by law, each Eligible Shareholder agrees that such Application Monies will not bear interest against the Company and that any interest earned on Application Monies will belong to the Company, irrespective of whether or not all or any of the New Shares applied for by the Applicant are issued to that person.

If quotation of the New Shares is not granted by ASX, no New Shares will be allotted and Application Monies will be refunded to Applicants without interest within the time prescribed under the Corporations Act.

SECTION 3 - OVERVIEW OF THE COMPANY AND ITS OPERATIONS AND USE OF FUNDS

3.1 Background:

The Company has been consolidating its position over the last three years to ensure a leaner and more efficient organisation delivering quality products and services. To that end, numerous measures were undertaken. These include, but are not limited to, the following:

Debt Reduction: We paid down a portion of our debt being approximately \$467,000;

Restructuring: Providing autonomy to General Managers of the two Divisions while centralising only those services which can be provided more efficiently. Thus achieving a reduction in corporate costs of \$500,000 per annum;

5 year Business Action Plan: The Company implemented strategic initiatives as part of the 5 year Business Action Plan.

Strategic Focus: on improving performance in Australia and New Zealand through organic growth whilst pursuing opportunities to further grow the business through partnerships, strategic alliances and other opportunities that provide potential to expand our business nationally and internationally.

Assimilation of separate entities: All businesses of the Damba Australia, Gregory Australia and Vibe furniture were assimilated and integrated into Gregory Commercial Furniture Pty Limited;

Cost Cutting measures: downsizing of the Bayswater facility, commencement of outsourcing for systems manufacture and manufacturing specialisation for all three plants in the Furniture Division to achieve more streamlined manufacturing and better inventory control. Cutting costs by applying lean principles to our offices and workshops, and upstream to our partners and suppliers, as well as downstream to our customers.

FY 2010: Due to the continued global economic crisis, the following further measures were taken:

Debt Reduction: We paid down a portion of our debt being approximately \$461,000.

Consolidation: Consolidation of Sydney and Bayswater facilities into one and moving from Wetherill Park to larger premises able to accommodate all the facilities into one as well as provide for organic growth;

New Zealand: New Zealand facility also moved to a better factory at a lower-cost with enhanced work parameters.

FY 2011:

Debt Reduction: We paid down a portion of our debt being approximately \$781,000 of Commercial bills and then paying off loan to a related party for an amount of \$646,000.

Sale of Technology Division: Agreement was reached for the sale of Technology Division and resources were put in place for the growth of the traditional Gregory business.

3.2 Future:

3.2.1 Technology:

The technology division (IVTT) has and continues to go through a changing phase in its history. Under the old PNE name it was principally an appliance, air-conditioning electronic component inventor and supplier.

Due to the changing nature of manufacturing in Australia and the supply of products and parts now being produced in Asia (mainly China), it became unsustainable to continue the technology division in its old form.

The company had to change direction into a recession proof, electronic solutions company providing goods and services to both Federal and State Governments as well as major mining companies in Australia initially and then overseas particularly in the Asian region.

Its new range of products under Opentec Solutions, Impart Special Products, and SafeZone are now very well advanced and sort after in the market.

This strategy although detailed and time consuming, has now proved to be successful. Already IVTT has received substantial contracts and orders from Federal and State Governments which will deliver excellent results in the next 12 months and future years.

Couple this with substantial interest and orders from the major mining companies in Australia, the future for IVTT is very positive. The nature of this new business is solutions based, which requires detailed research and engineering as well as extensive lead up time with development and trialling of the end product. Each solution can take up to up to six months to a year to finalise particularly if it is Government related. Much of this basic development period has now ended and subject to fine tuning and additional applications, contracts and orders are been received.

It should also be pointed out that many of these contracts are for multiple installations over a 12 months or even two year period. It has also meant that IVTT, as we knew it, had to be restructured with a reduction in fixed costs and overheads which has already commenced. Further adjustments will be considered to ensure that IVTT delivers a positive bottom line result for the remainder of this and future financial years.

Whilst this is all positive news, as a consequence of this re-orientation, IVTT now requires additional capital to implement further restructuring as well as produce and deliver its new solutions based outcomes. IVTT is now a new solutions business employing some of the best engineers and talented people in the world in its team. Governments and major mining companies in Australia have discovered this pool of talent and are now using it to provide answers and solutions for a range of military, immigration, rail, detention, security and complex mining safety applications that make IVTT unique and a platform to be a major leader in its field both in Australia and overseas. The future looks very bright for technology, but it is a different business now and it will take time to produce its full potential.

3.2.2 Furniture:

The furniture Division has gone through significant change with the acquisition of the Damba, Pluto and Vibe businesses. Consolidating these companies under the Gregory banner presented GCF with an opportunity to rationalise the product offering, restructure and relocate warehousing and production facilities to become leaner and more efficient.

Post these acquisitions the new challenge for GCF came in the form of the Global Financial crisis and at the same time dealing with the fact that our patent on our flagship product, “dual density” seating technology was about to expire. This meant that our competitors could essentially copy the product and piggy back on the good work that GCF had done to establish the seating technology as the chair of choice for a large portion of the Australian task chair market. With the significant downturn in sales revenue, GCF was once again faced with the challenge of change and restructure to re-gain market share.

Consequently we made a decision that we could no longer be just an ergonomic chair supplier/manufacturer. We had to re-invent GCF in both Australia and New Zealand. With good market knowledge and feedback from our customer base we made the decision to become a “Turn Key” solution provider within the Commercial Furniture Space.

To achieve this, we reviewed and updated our product offering; we developed relationships with overseas suppliers to become more competitive in what were previously non-core products, whilst maintaining healthy margins.

Finally we had to attract new staff and up-skill existing staff to a new level of competency in selling "Turn Key" solutions to existing and new customers.

With all this in place, we have seen unprecedented growth within the furniture division. Some examples of this include our recent success with \$7M of new national business secured with Australian and New Zealand government departments. The essential element in these tenders was being able to provide "Turn Key" Solutions and being a "one stop shop" supplier. The product offering for these tenders ranged from chairs, soft seating, desking, storage systems, healthcare furniture, white boards, foot stools and so forth. In our quest to fulfil these Turn Key Solutions for our valued customers we have been very successful at procuring cutting edge components from local, European and Asia Pacific Rim manufacturers so that our finished product is second to none.

We have also been successful at securing exclusive distribution rights in Australia and New Zealand for product never seen before in this region such as the "Wind" visitor seating range from Asia.

In addition to this we have also secured the rights to a tried and true product range with a great history of quality within the Healthcare space such as the Oxford EME range of trolleys and computerised mobile patient history and medication carts.

With a broader product offer & much larger volumes of product manufactured and sold comes the need for greater stock holding of components both local and international, extra warehousing facilities nationally across Australia and New Zealand and an investment in people within manufacturing, national logistics and specialised sales people within the Healthcare and Architect and Designer markets.

In order to successfully service this unprecedented growth we now need to invest in our business to deliver on the promise to our valued customers, staff and most of all, you the shareholder who has shown such dedication to the Gregory brand. The future is very bright for all concerned.

SECTION 4 - RISK FACTORS

4.1 Introduction

The Securities offered under this Offer Document are considered speculative investments because of the nature of the business of the Company. There are a number of factors, both specific to the Company and of a general nature, which may affect the future operating and financial performance of the Company, the industry in which it operates and the outcome of an investment in the Company. There can be no guarantee that the Company will achieve its stated objectives or that forward-looking statements will be realised. This section, which is not exhaustive, represents the major risks known to the Company associated with an investment in the Company which potential investors need to be aware of and contains both risk elements that are general to the industry and specific to the Company's. Each of the risks set out below could, if it eventuates, have a material adverse impact on the Company's operating performance, potential profits and the value of its Securities. Before deciding to

invest in the Company, potential investors should read the entire Offer Document and the risk factors that could affect the financial performance of the Company. Potential investors should specifically consider the factors contained within this section, in order to appreciate fully the risks associated with an investment in the Company. You should carefully consider these factors in light of your personal circumstances and seek professional advice from your accountant, stockbroker, lawyer or other professional adviser before deciding whether to invest.

4.2 Risk Factors

There are a number of risks, both specific to Inventis and general investment risks which may affect materially and adversely the future performance of Inventis and the value of the Shares.

Inventis has taken steps to put in place safe guards and appropriate systems and actions to mitigate risks but it cannot guarantee that these safeguards and systems will be effective.

Some risks are outside the control of Inventis and the Directors and cannot be mitigated. This section describes a number of the risks associated with an investment in Shares. Investors should note that this list is not exhaustive, as it is not possible to identify all risks.

None of the Directors of Inventis, or any person associated with Inventis, guarantees the performance of Inventis, the payment of dividends or the market price at which New Shares will be traded.

Prior to making a decision in respect of making an investment in New Shares you should read this offer document carefully and in full and consider the following risk factors.

Investors should have regard to their own investment criteria and financial circumstances and should consider seeking professional guidance from their accountant, financial adviser, stockbroker, lawyer, or other independent professional adviser before deciding whether to invest.

- (a) **Economic Risk:** General economic conditions in the countries and regions in which Inventis operates will affect performance of Inventis. Adverse changes in factors such as level of inflation, interest rates, exchange control, government policy, and employment rates, among others are outside of the control of Inventis and its Directors and may result in material adverse impacts on the business and its operating results and forecasts.
- (b) **Exchange Risks:** Inventis' operating businesses import a significant number of components from, and sell products to various countries overseas. The risk associated with exchange rate change and interest rate change is outside of the control of Inventis and its Directors and may significantly affect the cost of items that the Company imports or exports.
- (c) **Liquidity Risks:** Liquidity is a reference to how much cash and cash equivalent Inventis has available. The Management of Inventis monitors liquidity carefully by regular review of various performance indicators and cash flows. The Directors believe that the capital structure of Inventis following the successful completion of the fundraising pursuant to this Offer, together with its borrowing facilities, will provide sufficient capital resources to enable Inventis to achieve the Directors' Forecasts as set out in this Prospectus. However there are no guarantees that the Directors' Forecasts can be achieved without further financing, or if further financing is required, that it can be obtained on favourable terms or at all.
- (d) **Operational and Forecast Risk:** Operational risks are those risks associated with the day-to-day operation of Inventis. Management monitors operational risks. The forecast revenue has been considered by the Directors with reference to the demand for the products and historic sales revenue statistics of the various companies in the Group. There is however no guarantee that all of the forecasted revenue will result. In addition there is no guarantee on the timing of forecast revenue. Inventis is exposed to the risk that

potential opportunities may not be realised in the period forecast, due to delays in contractual negotiations, or a potential client deciding not to purchase a particular product. These events could have a material adverse impact on the financial performance of Inventis.

- (e) **Outsourcing Risks:** The operating companies in the Group have adopted a policy to outsource externally much of the manufacture of their componentry and the provision of some services. The Group's operations are therefore vulnerable and could be significantly impacted:
 - > By the performance and the financial viability of its outsourcers;
 - > If outsourcers no longer continued to manufacture or supply a particular Group company; or
 - > If outsourcers materially increased their prices.
- (f) **Intellectual Property:** Inventis' operating subsidiaries market position depends, in part, on their ability to protect their Intellectual property rights and proprietary applications. Inventis relies on a combination of trade secrets, copyright and trademark law, patents, non-disclosure agreements and technical measures to protect its proprietary technology. It is possible for a third party to gain unauthorised access to, and to use applications to which Inventis and Group companies have proprietary rights and ownership. In addition, it may be possible for unauthorised third parties to copy all or part of products produced by the Group or to reverse engineer or otherwise obtain and use proprietary information.
- (g) **Product Liability Risk:** All manufacturing companies face a product liability risk. When dealing with the general public there is always a chance that one of Inventis' products may fail and cause damage or injury. For all product liability, the Company maintains comprehensive product liability insurance. Currently there are no known or threatened actions from an event of this nature however, should there be an action it would be a considerable distraction to the Management that could impact the performance of the Company and could have a material adverse effect on the profitability of the Group.
- (h) **Fraud Risk:** It is not possible to eliminate completely the risk of fraud, however the Directors will ensure that across the Group, reporting systems are implemented and/or strengthened to help the Group to operate in a manner such that fraud, theft and corruption are difficult to commit, likely to be detected and guaranteed to result in the retributive actions against the guilty party.
- (i) **Human Resource Risks:** Inventis is reliant on certain key Management, technical and sales personnel to generate future earnings. The achievability of the forecasts is partially dependent on the recruitment of additional managerial and technical staff with the appropriate skill levels. Inventis is committed to retaining key personnel. However there is no guarantee that key personnel will remain committed to Inventis. Inventis has entered into Employment Agreements with its executive Directors and senior executives. Inventis relies on its ability to attract, retain, motivate, and train highly skilled and qualified employees in order to develop and market its products. If key personnel leave any one of the Group companies, this may have a material adverse effect on Inventis' ability to achieve its forecast earnings. A very serious risk that any manufacturing company faces is the risk from injury to an employee. The Directors are very aware of the risk, and have implemented appropriate safety regimes which are constantly monitored and reviewed. The Directors acknowledge that if an injury occurs in the workplace the Company will be likely face some form of legal action.
- (j) **Environmental Risks:** Inventis is very conscious of the environment and the impact that its products and manufacturing process have upon it. Inventis is always looking for better ways to produce its products that are more environmentally friendly. However there is always a risk that at some time one of the Group's processes or products will cause damage to the environment and that the Company will be held responsible for that damage.

(k) **Litigation:** There is always the risk of litigation against any company. The Directors have in place procedures and policies to attempt to limit this risk.
